

Amendment to Independent Contractor Agreement

Aventura Aesthetics Group LLC d/b/a Kami Aesthetics and Valeriia Tiertyshnikova APRN

This Amendment is entered into by Aventura Aesthetics Group LLC d/b/a Kami Aesthetics (Company) and Valeriia Tiertyshnikova, APRN (Contractor), and amends their Independent Contractor Agreement effective April 10, 2026 (Agreement). Pursuant to Section 15.2 of the Agreement, the parties agree to the following changes effective December 1, 2026. Capitalized terms not defined here have the meanings given in the Agreement.

1 Compensation increase

For services personally performed by Contractor on or after December 1, 2026, the percentages in Section 5.1 are amended to 35% for Contractor and 65% for Company. Services performed before December 1, 2026 remain payable at the prior applicable rate, even if collected later. Except as expressly clarified below, the definition of Net Collected Revenue, deductions, exclusions, and payment schedule in Section 5 remain unchanged.

For clarity, treatment revenue includes injectable units and materials administered as part of Contractor's authorized treatments even when the billing system classifies them as product sales. Actual take-home retail skincare and other retail products remain excluded under Section 5.2. Patient-paid processing surcharges are excluded from the compensation base, and processing fees recovered through those surcharges shall not be deducted again. This Amendment does not change any existing lawful tip arrangement.

2 Review toward 40 percent

The following provisions are added to Section 5 of the Agreement as Sections 5.6 through 5.9. They establish eligibility for a review and do not create an automatic increase.

5.6 Eligibility for review toward 40%. Beginning with December 2026, Contractor qualifies for a compensation review toward 40% after completing at least 80 Qualifying Appointments in any single full calendar month. There is no minimum monthly revenue requirement, and consecutive qualifying months are not required. Appointments from different months may not be combined, and unused appointments do not carry forward. The earliest qualifying month is December 2026.

5.7 Qualifying Appointment. A Qualifying Appointment is an actually completed, paid treatment visit personally performed by Contractor and supported by the clinical and payment records, including a visit paid through redemption of a previously purchased treatment package. Multiple services, injectable units, or invoice entries within one visit count as one appointment. Touch-ups, whether paid or complimentary, do not count. Also excluded are cancellations, no-shows, consultation-only visits, follow-up-only visits, complimentary treatments, and visits performed by another provider. A patient may have multiple genuine treatment visits on different dates; encounters may not be divided artificially to increase the count. At most one qualifying visit per patient per day is counted. A visit containing a separate paid primary treatment plus a touch-up counts once for the primary treatment; the touch-up adds no count. Fully refunded visits are excluded. Counts are assigned to the treatment month, not the booking date.

5.8 Review procedure and discretion. Company shall provide a monthly count within 15 calendar days after month-end. After any qualifying month, the parties shall meet within 30 calendar days after that month ends to review a possible increase to 40%, considering clinical performance, documentation, reliability, patient experience, purchasing assistance, and practice economics. Meeting the appointment target guarantees the review, not the increase. There is no additional revenue threshold for review eligibility. Any approved increase requires a written amendment signed by both parties stating the rate, effective date, and conditions. The 35% rate continues unless that amendment is signed. A later decline in appointments does not by itself reduce an agreed rate.

5.9 Clinical independence. Appointment targets must never influence the decision to recommend or withhold treatment, discourage appropriate touch-ups or follow-up, or encourage unnecessary visits. Compensation is for personally performed services and the responsibilities described here, not for patient referrals, prescribing a particular product, or steering patients to another provider.

3 Remaining terms

Except as expressly amended here, all terms of the Agreement remain unchanged and in full force, including its term, renewal, termination, supervision, insurance, training, confidentiality, and restrictive provisions. This Amendment does not restart or extend the current term, release accrued rights, or replace the Agreement. If there is a conflict, this Amendment controls only concerning its subject matter. Further changes require a writing signed by both parties. Counterparts and electronic signatures are permitted as provided in the Agreement.

Signatures

The parties sign on the actual dates below and agree to the December 1, 2026 effective date of this Amendment.
